How to Use This Playbook

This playbook contains the complete new website content for chautech.de: a competitor benchmark, the target site architecture, and production-ready copy for every core page. Each page starts with an **SEO & AEO Intelligence** panel (metadata, keywords, persona and a direct-answer block for AI search), followed by the on-page copy in wireframe order: hero, value, features, proof, FAQ and final call to action.

Rules before publishing

1. Replace every amber placeholder such as **[number of projects]** or **[Client name]** with verified facts. Never publish invented clients, testimonials, certifications or numbers – AI search engines and B2B buyers check claims, and false claims damage trust and may breach German competition law (UWG).

2. Publish German and English versions. Copy is written in English; the German version must be localized by a native speaker (formal 'Sie'), not machine-translated word for word. German meta titles, descriptions and keywords are already provided in each panel.

3. Fix rendering first. The copy only works for SEO, AEO and GEO if search engines and AI crawlers can read it: server-side rendering or pre-rendering is a precondition (see Section 2.3).

Term	Meaning in this document
SEO	Search Engine Optimization – ranking in Google and Bing results.
AEO	Answer Engine Optimization – being quoted in featured snippets, voice answers and AI answers.
GEO	Generative Engine Optimization – being named and cited by ChatGPT, Perplexity, Claude, Gemini and Google AI Overviews.
Direct Answer Block	A 40–50 word, self-contained paragraph placed near the top of the page that answers the page's main question.
Placeholder	Text in **[amber brackets]** – must be replaced with verified company facts.

PHASE 1

1 Competitor Analysis & Market Benchmark

We reviewed how global leaders and established German IT consultancies present themselves online: their positioning, messaging hierarchy, proof and conversion paths. The goal is not to copy them, but to adopt proven patterns and occupy the space they leave open.

1.1 Competitors Reviewed

Company	Positioning (what they lead with)	What they do well	What ChauTech adopts
Thoughtworks (global)	AI-first software delivery; own agentic development platform (AI/works) for legacy modernization and new products	Named methodology, quantified outcomes (e.g. cycle-time reduction), deep thought leadership, events	Name our delivery method; publish outcome numbers per case
Accenture (global)	Enterprise-scale transformation and reinvention with AI across industries	Industry pages, research reports, C-level language, huge proof library	Industry landing pages; executive-level headlines
Infosys (global)	AI-first services and AI-augmented services; branded AI platform (Topaz)	Clear AI service taxonomy, partner ecosystem, client quotes by name and role	Clear service taxonomy; testimonials with name + role
adesso (DACH)	'We make AI work' – agentic AI in production, industry depth, 11,500+ staff	Strong German trust signals, studies (GenAI Impact Report), industry focus	Publish a small annual study; German-first trust language
MaibornWolff (DACH)	AI and cloud, engineered for your industry; high-end custom software	Engineering credibility, crisp one-line promise	One-line promise combining AI + engineering
codecentric / iteratec / Exxeta (DACH)	Agile custom software, AI and cloud for Mittelstand and DAX firms	Awards and rankings, long client relationships, local offices	Show longevity of client relationships; awards when earned

1.2 Messaging Hierarchy Used by Industry Leaders

Level	Pattern	Example structure
1. Promise	One outcome-led line: AI + engineering + business value	'AI and cloud, engineered for your industry.'
2. Proof of scale	Numbers: people, locations, years, clients	'X experts · Y projects · Z years'
3. Offer taxonomy	4–6 clearly named service lines	Consulting · Engineering · AI · Cloud · Teams
4. Industry relevance	Dedicated industry pages with sector language	Automotive, Financial Services, Healthcare
5. Evidence	Case studies with measurable results, named logos, quotes	Challenge → Solution → Result (%, €, weeks)
6. Thought leadership	Studies, blogs, podcasts, events	Annual report, expert articles
7. Conversion	Low-friction contact: 'Talk to an expert', booking	Short form + calendar + named contact person

1.3 Trust Factors: DACH vs. Global Buyers

DACH (Germany, Austria, Switzerland) buyers expect	Global / international tech buyers expect
GDPR (DSGVO) compliance, data processing agreements (AV-Vertrag), EU data residency	Speed, scalability and time-to-market
Engineering precision, documentation, clear contracts and fixed responsibilities	Innovation, modern stack, AI-native thinking
German-speaking contact person and local presence (Hamburg)	Timezone coverage and English-first communication
References from comparable companies, long-term relationships	Flexible engagement models and fast team scaling
Certifications (e.g. ISO 27001) and EU AI Act readiness	Case studies with growth metrics

1.4 Content Gaps & ChauTech's Opportunity

- **Mid-market gap:** large firms lead with enterprise-scale language. Mittelstand companies and scaleups rarely see themselves in it. ChauTech can own **'enterprise-grade engineering at Mittelstand speed'**.
- **Pragmatic AI gap:** competitors talk about agentic platforms for large enterprises. Few explain practical, affordable AI automation (e.g. n8n workflows, AI assistants) with clear ROI for 50–1,000-employee firms.
- **One-roof gap:** most providers are either consultancies, software houses or staffing firms. ChauTech combines consulting, engineering, AI automation and team extension – one partner, one contract.
- **Answer gap:** few competitor pages contain concise, quotable answers (costs, timelines, 'how does it work'). Direct answer blocks and FAQ schema make ChauTech citable by AI assistants.
- **Speed-to-start gap:** buyers struggle to find senior engineers. A clear promise such as 'team ready in **[2–4]** weeks' is a strong differentiator – only if it can be delivered.

1.5 High-Intent Keyword Map (starting set – validate volumes)

Page	Primary keyword (EN)	Primary keyword (DE)	Intent
Home	IT consulting company Germany	IT-Beratung Hamburg	Commercial
IT Consulting	digital transformation consulting	Digitalisierungsberatung Mittelstand	Commercial
Software & Cloud	custom software development company	Individualsoftware entwickeln lassen	Transactional
AI & Automation	AI automation consulting / n8n agency	KI-Beratung Mittelstand / n8n Agentur	Commercial
Staff Augmentation	IT staff augmentation Germany	IT-Fachkräfte Arbeitnehmerüberlassung / IT-Teamverstärkung	Transactional
Industries	software development for automotive / fintech / healthcare	Softwareentwicklung Automotive / FinTech / Gesundheitswesen	Commercial
Careers	IT consultant jobs Hamburg	IT-Consultant Jobs Hamburg	Navigational
Contact	book IT consultation	IT-Beratung Termin vereinbaren	Transactional

Validate each keyword in Google Search Console and a keyword tool before finalizing. Keep one primary keyword per page to avoid pages competing with each other.

1.6 ChauTech Positioning & Messaging Hierarchy

Level	ChauTech message
Promise (tagline)	Enterprise-grade engineering. Mittelstand speed.
Positioning statement	ChauTech Consulting is a Hamburg-based technology partner that helps mid-market companies and scaling tech firms plan, build and run software, cloud and AI solutions – with senior teams that start in weeks, not months.
Service pillars	IT Consulting & Digital Transformation · Custom Software & Cloud · AI, Automation & Process Optimization · Staff Augmentation & Dedicated Teams
Proof	**[Number]** projects · **[Number]** engineers in network · **[Number]** years · **[Client logos with approval]**
Values (brand)	Professional · Flexible · Innovative · Trusted
Primary CTA	Book a free 30-minute consultation
Secondary CTA	See our work / Explore services

PHASE 2

2 Website Architecture & Technical SEO/AEO/GEO Foundations

2.1 Sitemap & URL Structure

Page	English URL	German URL
Home	/en/	/de/
About Us	/en/about/	/de/ueber-uns/
IT Consulting & Digital Transformation	/en/services/it-consulting/	/de/leistungen/it-beratung/
Custom Software & Cloud	/en/services/software-development-cloud/	/de/leistungen/softwareentwicklung-cloud/
AI, Automation & Process Optimization	/en/services/ai-automation/	/de/leistungen/ki-automatisierung/
Staff Augmentation & Dedicated Teams	/en/services/dedicated-teams/	/de/leistungen/it-teams/
Industries (overview + 4 pages)	/en/industries/automotive/ …	/de/branchen/automotive/ …
Case Studies	/en/case-studies/**[slug]**/	/de/referenzen/**[slug]**/
Careers	/en/careers/	/de/karriere/
Contact & Booking	/en/contact/	/de/kontakt/
Legal	/en/imprint/, /en/privacy/	/de/impressum/, /de/datenschutz/

2.2 Page Template (applies to every page)

1. **Hero:** the keyword-rich H1 from the SEO panel (the page's only H1, can be styled small above the headline), then the short display headline, sub-headline, primary and secondary CTA.
2. **Direct Answer Block:** 40–50 word paragraph directly below the hero (visible text, not hidden).
3. **Problem → Solution:** 3 buyer problems, each answered by one ChauTech capability.
4. **Features & benefits:** scannable cards with benefit-led bullets.
5. **Proof:** case-study teaser, testimonial, logos, tech stack, compliance badges.
6. **FAQ:** 4–6 questions in natural language (how buyers ask AI assistants), with FAQPage schema.
7. **Final CTA:** one clear action with reassurance (free, 30 minutes, no obligation).

2.3 Technical Checklist for SEO, AEO and GEO

Area	Requirement	Why it matters
Rendering	Server-side rendering or pre-rendering; all copy in the initial HTML	Today crawlers see only a JavaScript notice – without this fix no copy can rank
Metadata	Unique title (≤ 60 characters) and description (≤ 155 characters) per page and language	Click-through rate and correct snippets
Languages	hreflang tags linking /de/ and /en/ versions; x-default	Correct language shown per market
Structured data	JSON-LD: Organization, LocalBusiness (Hamburg), Service, FAQPage, BreadcrumbList, Article, JobPosting	Rich results and machine-readable facts for AI engines
Entity consistency	Identical company name, address, services and description on website, LinkedIn, Google Business Profile, directories	AI engines trust entities that are described consistently
AI crawler access	Allow GPTBot, PerplexityBot, ClaudeBot, Google-Extended in robots.txt (business decision); add /llms.txt summary	Makes content available for AI answers and citations
E-E-A-T	Named authors with bio and LinkedIn; dated content; sources for statistics	Expertise and trust signals for Google and AI
Performance	Core Web Vitals green on mobile; images in WebP/AVIF; lazy loading	Ranking factor and conversion
Compliance	Consent banner, Impressum, Datenschutzerklärung, accessible design (WCAG 2.1 AA)	Legal requirement in Germany; trust

SECONDARY KEYWORDS	software development company, AI consulting, cloud solutions, IT staff augmentation · DE: Softwareentwicklung, KI-Beratung, IT-Dienstleister
LSI / SEMANTIC	digital transformation, custom software, generative AI, process automation, dedicated development team, Mittelstand, nearshore, DSGVO
INTENT & PERSONA	Commercial investigation · CTOs, CIOs, Managing Directors (Geschäftsführer), Heads of IT/AI, HR Directors
AEO DIRECT ANSWER (42 WORDS)	*ChauTech Consulting GmbH is an IT consultancy based in Hamburg, Germany. It provides IT consulting, custom software development, cloud solutions, AI and process automation, and dedicated IT teams for mid-market companies and scaling tech firms across Germany, Austria, Switzerland and international markets.*

SECTION 1 – HERO

EYEBROW	IT Consulting · Software Engineering · AI & Automation · Hamburg
DISPLAY HEADLINE	Enterprise-grade engineering. Mittelstand speed.
SUB-HEADLINE	We help mid-market companies and scaling tech firms in the DACH region and worldwide plan, build and run software, cloud and AI solutions – with senior teams that start in **[2–4]** weeks, not months.
PRIMARY CTA	Book a free 30-minute consultation
SECONDARY CTA	Explore our services
TRUST STRIP	**[Client logo] [Client logo] [Client logo]** · GDPR-compliant delivery · Based in Hamburg, Germany

SECTION 2 – DIRECT ANSWER BLOCK (VISIBLE TEXT BELOW HERO)

Use the AEO Direct Answer from the panel above as a short 'Who we are' paragraph.

SECTION 3 – PROBLEM → SOLUTION

Your roadmap is late

Senior developers are hard to hire and projects stall. → **We add experienced engineers or a complete squad to your team in [2–4] weeks.**

AI is on the agenda – but not in production

Pilots stay pilots and ROI is unclear. → **We identify high-value use cases and ship working AI automation with measurable results.**

Legacy systems slow you down

Old software and on-premise infrastructure block growth. → **We modernize step by step and move you to secure, scalable cloud platforms.**

SECTION 4 – SERVICES OVERVIEW

IT Consulting & Digital Transformation

IT strategy, architecture reviews, cloud and digitalization roadmaps that your board can approve and your team can deliver.
→ **Learn more**

Custom Software & Cloud Solutions

Web platforms, enterprise SaaS, APIs and cloud-native applications – built to scale, documented to last.
→ **Learn more**

AI, Automation & Process Optimization

Generative AI assistants, AI agents and n8n workflow automation that remove manual work from daily operations.
→ **Learn more**

Staff Augmentation & Dedicated Teams

Vetted senior engineers or a complete dedicated team – flexible, fast, and fully integrated into your processes.
→ **Learn more**

SECTION 5 – WHY CHAUTECH (VALUE PROPOSITIONS)

One partner, end to end

Consulting, engineering, AI and team extension under one roof – one contract, one point of contact.

Speed without shortcuts

Senior teams start in **[2–4]** weeks. Clean architecture, tests and documentation are standard, not extras.

German standards, global talent

Hamburg-based project leadership, GDPR-compliant processes and an international engineering network.

Pragmatic AI

We build AI that saves hours and euros – measured, secure and aligned with the EU AI Act.

SECTION 6 – PROOF & TRUST ARCHITECTURE

STATS BAR	**[Number]**+ projects delivered · **[Number]**+ engineers · **[Number]** countries served · **[Number]** years in business
CASE STUDY TEASER	**[Client/industry]: [Result, e.g. 'Order processing time reduced by 60% with AI automation']** → Read the case study
TESTIMONIAL	"**[Verified quote from client, 1–2 sentences.]**" – **[Name]**, **[Role]**, **[Company]**
TECH STACK STRIP	AWS · Microsoft Azure · Google Cloud · Kubernetes · Java · .NET · Python · TypeScript/React · Node.js · n8n · OpenAI · Anthropic · **[only technologies actually used]**
COMPLIANCE BADGES	GDPR/DSGVO compliant · EU data hosting available · EU AI Act-aware delivery · **[ISO 27001 – only if certified]**

SECTION 7 – ENGAGEMENT MODELS

Model	Best for	How it works
Project (fixed scope)	Clearly defined products and MVPs	Fixed price or budget, milestones, full delivery responsibility
Dedicated team	Long-term product development	Cross-functional squad, monthly rate, your roadmap
Staff augmentation	Capacity gaps and specialist roles	Senior experts join your team, flexible duration

Model	Best for	How it works
Consulting sprint	Strategy, audits and AI use-case discovery	2–4 week engagement with a clear decision document

SECTION 8 – FAQ

Q **What does ChauTech Consulting do?**
ChauTech Consulting is a Hamburg-based IT consultancy providing IT consulting, custom software development, cloud solutions, AI and process automation, and dedicated IT teams for companies in the DACH region and worldwide.

Q **Which companies does ChauTech work with?**
We work mainly with mid-market companies (50–1,000 employees) and venture-backed scaleups, as well as individual business units of large enterprises, in industries such as automotive, financial services, healthcare and technology.

Q **How quickly can a project or team start?**
After a free consultation and scoping, most teams can start within **[2–4]** weeks. Consulting sprints can often begin within **[one to two]** weeks.

Q **Does ChauTech work with international clients?**
Yes. Project leadership is based in Hamburg, and we work in German and English with clients across the DACH region, Europe and worldwide.

Q **Is ChauTech GDPR compliant?**
Yes. We follow GDPR (DSGVO) requirements, sign data processing agreements and can host solutions in EU data centers. **[Confirm details with data-protection officer.]**

Implement as FAQPage schema (JSON-LD). Keep answers identical on page and in markup.

SECTION 9 – FINAL CTA

HEADLINE	Let's turn your next technology decision into results.
TEXT	In a free 30-minute call, we'll look at your goals, identify quick wins and recommend the right next step – no obligation.
PRIMARY CTA	Book your free consultation
REASSURANCE	Answer within 1 business day · German & English · GDPR-compliant

LSI / SEMANTIC	company values, leadership team, delivery approach, GmbH, Hamburg, international engineering network
INTENT & PERSONA	Navigational / trust verification · Managing Directors, procurement, CTOs checking credibility
AEO DIRECT ANSWER (45 WORDS)	*ChauTech Consulting GmbH is a technology consultancy registered in Hamburg, Germany. The company combines IT consulting, software engineering, AI automation and IT team extension, helping mid-market companies and scaleups in the DACH region and worldwide deliver digital projects faster, securely and with measurable business results.*

SECTION 1 – HERO

DISPLAY HEADLINE	We build technology that moves businesses forward.
SUB-HEADLINE	ChauTech Consulting is a Hamburg-based technology partner. We combine consulting, engineering and AI to help companies deliver faster – without compromising on quality or security.
PRIMARY CTA	Talk to our team
SECONDARY CTA	See our work

SECTION 2 – OUR STORY

ChauTech Consulting was founded in **[year]** in Hamburg with a simple observation: mid-market companies need the same engineering quality as large enterprises – but with more speed, more flexibility and a partner who truly listens. Today, we support clients in **[number]** countries with IT consulting, custom software, AI automation and dedicated engineering teams. **[Add 1–2 sentences on founder motivation – verified.]**

SECTION 3 – MISSION & VALUES

Professional
Clear contracts, reliable delivery, transparent reporting. German business standards in every project.

Flexible
Engagement models that fit your reality – from a two-week sprint to a long-term dedicated team.

Innovative
Practical AI and modern cloud architecture that create real business value, not buzzwords.

Trusted
Long-term partnerships, data protection by design and honest advice – even when the answer is 'not yet'.

SECTION 4 – HOW WE WORK (DELIVERY APPROACH)

Step	What happens	Your result
1. Discover	Free consultation, goals, constraints, success metrics	Shared understanding and next step
2. Define	Scope, architecture, team, timeline, budget	Clear proposal and decision document
3. Deliver	Agile sprints, demos every [2] weeks, quality gates	Working software early and often
4. Run & Improve	Handover, documentation, support, optimization	Stable operations and ongoing value

SECTION 5 – LEADERSHIP & TEAM

LEADERSHIP CARDS	**[Photo] [Name]**, **[Role]** – 2-line bio with experience and LinkedIn link (repeat per leader)
TEAM STATS	**[Number]** consultants and engineers · **[Languages spoken]** · **[Locations/time zones]**
COMPANY FACTS	ChauTech Consulting GmbH · Hamburg, Germany · Commercial register: Amtsgericht Hamburg, **[HRB number – confirm]**

SECTION 6 – FAQ

Q **Where is ChauTech Consulting based?**
ChauTech Consulting GmbH is headquartered in Hamburg, Germany, and works with clients across the DACH region and internationally.

Q **What makes ChauTech different from large consultancies?**
We combine senior expertise with mid-market speed: one partner for consulting, engineering, AI and team extension, fast start times and direct access to decision makers.

Q **Does ChauTech only work with German companies?**
No. We serve clients in Germany, Austria, Switzerland and worldwide, working in German and English.

Q **How does ChauTech ensure quality?**
Every project follows defined quality gates: code reviews, automated testing, documentation and regular demos, led by an experienced project lead.

Implement as FAQPage schema (JSON-LD). Keep answers identical on page and in markup.

SECTION 7 – FINAL CTA

HEADLINE	Let's get to know each other.

SECONDARY KEYWORDS	IT strategy consulting, cloud migration consulting, IT architecture review · DE: IT-Strategie, Cloud-Migration Beratung, IT-Beratung Hamburg
LSI / SEMANTIC	IT roadmap, technology assessment, legacy modernization, vendor selection, enterprise architecture, NIS2, IT cost optimization
INTENT & PERSONA	Commercial · CIOs, CTOs, Managing Directors, Heads of IT
AEO DIRECT ANSWER (41 WORDS)	*IT consulting and digital transformation means assessing a company's current systems, defining a target architecture and creating a prioritized roadmap. ChauTech delivers IT strategy, architecture reviews, cloud migration planning and modernization roadmaps for mid-market companies, typically within a two-to-four-week consulting sprint.*

SECTION 1 – HERO

DISPLAY HEADLINE	Clear IT decisions. Faster transformation.
SUB-HEADLINE	From IT strategy to cloud roadmap: we assess where you stand, define where you need to go and plan the fastest, safest route – ready for board approval.
PRIMARY CTA	Book a free IT strategy call
SECONDARY CTA	Download: IT Modernization Checklist **[lead magnet]**

SECTION 2 – PROBLEM → SOLUTION

Unclear priorities

Too many initiatives, limited budget. → **A prioritized roadmap based on business value and risk.**

Legacy and technical debt

Old systems block new products. → **Step-by-step modernization without disrupting operations.**

Rising IT costs

Licenses, infrastructure and vendors grow unchecked. → **Transparent cost analysis and optimization plan.**

SECTION 3 – SERVICES & BENEFITS

IT Strategy & Roadmap
- Current-state assessment of systems, processes and team
- Target architecture aligned with business goals
- 12–24 month roadmap with budget and milestones

Architecture & Technology Review
- Independent review of code, infrastructure and security
- Risk and technical-debt scoring
- Concrete recommendations, ranked by impact

Cloud Strategy & Migration Planning
- Cloud readiness assessment (AWS, Azure, GCP)
- Migration path: rehost, refactor or rebuild
- Cost forecast and EU data-residency options

Digitalization & Process Consulting
- Map manual processes and media breaks
- Identify automation and AI potential
- Business case with expected savings

Vendor & Tool Selection
- Requirements catalogue and shortlist
- Neutral evaluation and scoring
- Support in negotiations and onboarding

Security & Compliance Readiness
- Gap analysis for GDPR, NIS2 and EU AI Act
- Practical measures and priorities
- **[Partner-led audits where required]**

SECTION 4 – PROCESS: THE 4-WEEK CONSULTING SPRINT

Week	Activities	Deliverable
1	Kick-off, interviews, system and document review	Current-state map
2	Analysis of architecture, costs, risks and opportunities	Findings report
3	Target picture and options with pros/cons	Target architecture
4	Roadmap, budget, business case, presentation to management	Decision document

SECTION 5 – PROOF

CASE TEASER	**[Industry, company size]: [e.g. 'Cloud roadmap reduced infrastructure costs by X% in 12 months']** → Read case
TESTIMONIAL	"**[Verified quote]**" – **[Name]**, **[CIO/CTO]**, **[Company]**
BADGES	GDPR-compliant · Vendor-neutral advice · **[Cloud partner status – only if held]**

SECTION 6 – FAQ

Q What does an IT consultant do for a mid-sized company?
An IT consultant assesses existing systems, identifies risks and opportunities, and creates a prioritized roadmap for technology investments – including architecture, cloud, security and automation.

Q How long does an IT strategy project take?
A focused consulting sprint with ChauTech typically takes two to four weeks and ends with a decision document and roadmap for management.

Q How much does IT consulting cost?
Costs depend on scope. A consulting sprint is offered as a fixed-price package starting from **[€ amount – confirm]**; larger programs are priced by effort.

Q Are your recommendations vendor-neutral?
Yes. We recommend the technologies that fit your goals and budget, and we disclose any partner relationships.

Q Can you also implement the roadmap?
Yes. Our software, cloud and AI teams can deliver the roadmap, so strategy and execution come from one partner.

Implement as FAQPage schema (JSON-LD). Keep answers identical on page and in markup.

SECTION 7 – FINAL CTA	
HEADLINE	Get a clear IT roadmap in four weeks.
TEXT	Start with a free 30-minute call. We'll tell you honestly whether a sprint makes sense for you.

3.4 Service: Custom Software Development & Cloud Solutions

URL: /en/services/software-development-cloud/ · /de/leistungen/softwareentwicklung-cloud/

SEO & AEO INTELLIGENCE	
H1 RECOMMENDATION	Custom Software Development & Cloud Solutions That Scale
META TITLE (EN)	Custom Software Development & Cloud | ChauTech
META DESCRIPTION (EN)	Custom software, SaaS platforms and cloud-native apps built by senior engineers. From MVP to enterprise scale. Get a free project estimate.
META TITLE (DE)	Individualsoftware & Cloud-Lösungen entwickeln lassen | ChauTech
META DESCRIPTION (DE)	Individualsoftware, SaaS-Plattformen und Cloud-Anwendungen von erfahrenen Entwicklern. Vom MVP bis zur Enterprise-Lösung. Jetzt Projekt anfragen.
TARGET REGION	DACH + Worldwide
PRIMARY KEYWORD	custom software development company · DE: Individualsoftware entwickeln lassen
SECONDARY KEYWORDS	cloud application development, SaaS development, web application development, legacy modernization · DE: Softwareentwicklung Hamburg, Cloud-Lösungen, SaaS-Entwicklung
LSI / SEMANTIC	MVP, microservices, APIs, Kubernetes, DevOps, CI/CD, AWS, Azure, React, Java, .NET, scalable architecture
INTENT & PERSONA	Transactional · CTOs, VPs of Engineering, Product Owners, founders of scaleups
AEO DIRECT ANSWER (46 WORDS)	*Custom software development is the design and build of software tailored to a company's processes, products and customers. ChauTech develops web platforms, enterprise SaaS, APIs and cloud-native applications on AWS, Azure and Google Cloud, from first MVP to scalable production systems with DevOps and long-term support.*

SECTION 1 – HERO

DISPLAY HEADLINE	Software that fits your business – and grows with it.
SUB-HEADLINE	Senior engineers build your platform, product or internal tool on a modern, secure cloud foundation. Clean code, clear documentation, predictable delivery.
PRIMARY CTA	Get a free project estimate
SECONDARY CTA	See case studies

SECTION 2 – PROBLEM → SOLUTION

Off-the-shelf software doesn't fit

Workarounds cost time every day. → **Software built around your processes.**

MVP needed – fast

Investors and customers are waiting. → **A production-ready MVP in [8–12] weeks.**

Platform can't scale

Performance issues and outages as you grow. → **Cloud-native architecture built for scale.**

SECTION 3 – SERVICES & BENEFITS

Web & Enterprise Applications
- Portals, dashboards, internal tools
- Role-based access and integrations (ERP, CRM)
- Intuitive UX for daily users

SaaS & Product Development
- MVP to multi-tenant SaaS
- Subscription, billing and analytics
- Product discovery and UX design

Cloud-Native Development
- Microservices, containers, Kubernetes
- AWS, Azure, Google Cloud
- Cost-efficient, auto-scaling infrastructure

APIs & Integrations
- REST/GraphQL APIs and middleware
- Connect legacy systems and third-party tools
- Secure, documented and monitored

Legacy Modernization
- Refactor or re-platform old applications
- Migrate step by step, zero big-bang risk
- AI-assisted code analysis

DevOps, QA & Support
- CI/CD pipelines and automated testing
- Monitoring, security updates, SLAs
- Continuous improvement after launch

SECTION 4 – TECHNOLOGY STACK

Layer	Technologies [confirm actual expertise]
Frontend	React, Next.js, Angular, Vue, TypeScript, Flutter, React Native
Backend	Java/Spring, .NET, Node.js, Python, Go
Cloud & DevOps	AWS, Microsoft Azure, Google Cloud, Docker, Kubernetes, Terraform, GitHub Actions, GitLab CI
Data	PostgreSQL, MongoDB, Redis, Elasticsearch, data pipelines

SECTION 5 – PROOF

CASE TEASER	**[Client/industry]: [e.g. 'SaaS platform launched in X weeks, scaled to Y users']** → Read case
TESTIMONIAL	"**[Verified quote]**" – **[Name]**, **[CTO]**, **[Company]**
QUALITY BADGES	Code reviews on every change · Automated tests · Documentation included · GDPR by design

SECTION 6 – FAQ

Q How much does custom software development cost?
Cost depends on scope, complexity and team size. After a free scoping call, ChauTech provides a transparent estimate with fixed-price or time-and-material options. Typical MVPs start from **[€ amount – confirm]**.

Q How long does it take to build an MVP?
A focused MVP usually takes **[8–12]** weeks from kick-off to launch, depending on features and integrations.

Q Who owns the source code?
You do. All source code, documentation and intellectual property are transferred to you as agreed in the contract.

Q Which cloud provider should we use?
It depends on your existing systems, compliance needs and budget. We work with AWS, Azure and Google Cloud and recommend the best fit, including EU-hosted options.

Q Do you provide support after launch?
Yes. We offer maintenance, monitoring and further development with defined service levels.

Implement as FAQPage schema (JSON-LD). Keep answers identical on page and in markup.

SECTION 7 – FINAL CTA	
HEADLINE	Have a software idea or a system that needs fixing?
TEXT	Share it in a free 30-minute call and receive a first estimate within [5] business days.
PRIMARY CTA	Get your project estimate

3.5 Service: AI, Automation & Process Optimization

URL: /en/services/ai-automation/ · /de/leistungen/ki-automatisierung/

SEO & AEO INTELLIGENCE	
H1 RECOMMENDATION	AI Solutions, n8n Automation & Process Optimization for Businesses
META TITLE (EN)	AI Automation & GenAI Solutions | n8n Experts | ChauTech
META DESCRIPTION (EN)	Generative AI assistants, AI agents and n8n workflow automation that save hours every week. GDPR-compliant, measurable ROI. Book a free AI assessment.
META TITLE (DE)	KI-Beratung & Prozessautomatisierung | n8n Agentur | ChauTech
META DESCRIPTION (DE)	KI-Assistenten, KI-Agenten und n8n-Automatisierung für den Mittelstand. DSGVO-konform, messbarer Nutzen. Jetzt kostenlose KI-Potenzialanalyse buchen.
TARGET REGION	DACH + Worldwide
PRIMARY KEYWORD	AI automation consulting · DE: KI-Beratung Mittelstand
SECONDARY KEYWORDS	n8n agency, generative AI solutions, AI agents for business, process automation · DE: n8n Agentur, Prozessautomatisierung KI, KI-Agenten Unternehmen
LSI / SEMANTIC	LLM, RAG, chatbot, workflow automation, document processing, EU AI Act, AI use cases, intelligent automation, WhatsApp bot
INTENT & PERSONA	Commercial · Managing Directors, CDOs, Heads of AI/Operations, CTOs
AEO DIRECT ANSWER (47 WORDS)	*AI automation combines generative AI with workflow tools such as n8n to handle repetitive tasks like document processing, email triage, reporting and customer requests. ChauTech identifies high-value use cases, builds GDPR-compliant AI assistants and agents, and integrates them into existing systems with measurable time and cost savings.*

SECTION 1 – HERO

DISPLAY HEADLINE	AI that works in your daily operations – not just in presentations.
SUB-HEADLINE	We find the processes where AI saves the most time, build secure AI assistants and n8n automations, and measure the results in hours and euros.
PRIMARY CTA	Book a free AI potential assessment
SECONDARY CTA	Watch a 3-minute demo **[video]**

SECTION 2 – PROBLEM → SOLUTION

Teams drown in manual work
Copying data, answering the same questions, building reports. → **Automated workflows that run 24/7.**

AI pilots never reach production
Tests without integration or ownership. → **Production-ready AI connected to your systems.**

Worried about data and compliance
GDPR and EU AI Act uncertainty. → **EU-hosted options, clear governance and documentation.**

SECTION 3 – SERVICES & BENEFITS

AI Use-Case Discovery
- Workshop to map processes and pain points
- Prioritize by value, effort and risk
- Business case per use case

Generative AI Assistants
- Chatbots and knowledge assistants on your own data (RAG)
- Web, Microsoft Teams, Slack or WhatsApp
- Source-cited, controllable answers

AI Agents
- Agents that research, draft, classify and act
- Human approval where it matters
- Logging and monitoring built in

n8n Workflow Automation
- Connect CRM, ERP, email, spreadsheets and APIs
- Self-hosted option for full data control
- Handover so your team can maintain workflows

Intelligent Document Processing
- Extract data from invoices, contracts and forms
- Validate and route automatically
- Fewer errors, faster cycle times

AI Governance & EU AI Act Readiness
- AI inventory and risk classification
- Policies, documentation, staff guidance
- Secure model and vendor selection

SECTION 4 – TYPICAL USE CASES

Department	Use case	Typical effect [replace with measured results]
Sales	Lead research, CRM updates, personalized outreach drafts	Hours saved per sales rep per week
Customer service	AI assistant answers recurring questions, escalates complex cases	Faster response times
Finance	Invoice capture, matching, approval workflows	Shorter processing time, fewer errors
HR	CV pre-screening, onboarding workflows, internal FAQ bot	Faster time-to-hire
Operations	Order processing, reporting, alerts across systems	Less manual data entry

SECTION 5 – PROCESS

Phase	Duration	Result
1. AI Potential Assessment	Free, 30–60 min	Top 3 use cases
2. Pilot	[2–4] weeks	Working automation on real data, measured baseline
3. Rollout	[4–8] weeks	Integrated, monitored, documented solution
4. Scale & Optimize	Ongoing	More processes, continuous improvement

SECTION 6 – PROOF & TRUST

DEMO	Live demo: ChauTech's own AI WhatsApp assistant built with n8n **[show with permission and real screenshots]**
CASE TEASER	**[Client/industry]: [e.g. 'X hours per week saved in order processing']** → Read case
TECH STACK	n8n · OpenAI · Anthropic Claude · Google Gemini · Azure OpenAI · open-source LLMs · vector databases · Microsoft 365 **[confirm]**
BADGES	GDPR-compliant · EU hosting available · Human-in-the-loop by design · EU AI Act-aware

SECTION 7 – FAQ

Q	**What processes can be automated with AI?** Repetitive, rule-based or text-heavy tasks are ideal: email and document processing, data entry, reporting, customer questions, lead research and internal knowledge search.
Q	**What is n8n and why do you use it?** n8n is a workflow automation platform that connects apps, databases and AI models. It can be self-hosted, which keeps sensitive data under your control and reduces license costs.
Q	**Is AI automation GDPR compliant?** It can be. We use EU-hosted or self-hosted options where needed, minimize personal data, sign data processing agreements and document every workflow.
Q	**How much does an AI automation project cost?** A pilot typically starts from **[€ amount – confirm]**. The free assessment gives you an estimate and expected savings before you commit.
Q	**How quickly will we see results?** Most pilots show measurable time savings within **[2–4]** weeks, because they run on real data from day one.
Q	**Does the EU AI Act affect our AI projects?** Most business automation falls into low-risk categories, but obligations such as transparency and staff AI literacy apply. We classify each use case and document it accordingly.

Implement as FAQPage schema (JSON-LD). Keep answers identical on page and in markup.

SECTION 8 – FINAL CTA	
HEADLINE	Find out where AI saves you the most time.
TEXT	Free 30-minute AI potential assessment – you leave with three concrete use cases.
PRIMARY CTA	Book your AI assessment

WEBSITE PAGE 3.6

3.6 Service: Staff Augmentation & Dedicated IT Teams

URL: /en/services/dedicated-teams/ · /de/leistungen/it-teams/

SEO & AEO INTELLIGENCE	
H1 RECOMMENDATION	IT Staff Augmentation & Dedicated Development Teams
META TITLE (EN)	IT Staff Augmentation & Dedicated Teams | ChauTech
META DESCRIPTION (EN)	Senior developers, cloud and AI experts or a full dedicated team – ready in [2–4] weeks. Flexible contracts, Hamburg-based management. Request profiles.
META TITLE (DE)	IT-Teamverstärkung & dedizierte Entwicklerteams | ChauTech
META DESCRIPTION (DE)	Erfahrene Entwickler, Cloud- und KI-Experten oder ein komplettes Team – startklar in [2–4] Wochen. Flexible Verträge, Steuerung aus Hamburg.
TARGET REGION	DACH + Worldwide
PRIMARY KEYWORD	IT staff augmentation · DE: IT-Teamverstärkung
SECONDARY KEYWORDS	dedicated development team, hire software developers, IT contracting, nearshore developers · DE: Entwickler finden, IT-Fachkräfte, Arbeitnehmerüberlassung IT, IT-Freelancer
LSI / SEMANTIC	team extension, IT outsourcing, remote developers, talent shortage, time-to-hire, scalable teams, contractor
INTENT & PERSONA	Transactional · CTOs, Engineering Managers, HR Directors, Heads of Talent Acquisition
AEO DIRECT ANSWER (46 WORDS)	*IT staff augmentation means adding external IT specialists to an in-house team for a defined period. ChauTech provides vetted senior developers, cloud, data and AI experts, or complete dedicated teams that integrate into the client's processes, typically starting within two to four weeks, with flexible contracts.*

SECTION 1 – HERO

DISPLAY HEADLINE	The right engineers. In weeks, not months.
SUB-HEADLINE	Close skill gaps and hit your roadmap with vetted senior experts – individually or as a complete dedicated team, managed from Hamburg.
PRIMARY CTA	Request candidate profiles
SECONDARY CTA	Compare engagement models

SECTION 2 – PROBLEM → SOLUTION

Roles open for months
The IT talent shortage delays projects. → **Pre-vetted profiles within [5] business days.**

Hiring risk and cost
Recruiting fees and long notice periods. → **Flexible contracts that scale up or down.**

Freelancers don't integrate
No continuity or accountability. → **Managed experts with replacement guarantee.**

SECTION 3 – ENGAGEMENT MODELS

	Staff augmentation	Dedicated team	Project delivery
You get	Individual experts in your team	Full squad (dev, QA, PO/lead)	Complete outcome, fixed scope

	Staff augmentation	Dedicated team	Project delivery
Management	Your team lead	Shared, with ChauTech lead	ChauTech
Best for	Capacity peaks, specialist skills	Long-term product development	Clearly defined projects
Start	**[2–4]** weeks	**[3–6]** weeks	After scoping
Contract	Monthly, flexible	Monthly, **[3]**-month minimum	Fixed price / milestones

SECTION 4 – ROLES WE PROVIDE

Engineering
Frontend, backend, full-stack, mobile, QA/test automation

Cloud & DevOps
Cloud architects, DevOps/SRE, platform engineers

Data & AI
Data engineers, ML engineers, GenAI/LLM developers, n8n automation experts

Business & Delivery
Business analysts, product owners, Scrum masters, project managers, banking-process specialists **[confirm]**

SECTION 5 – HOW IT WORKS

1. **Brief:** 30-minute call on role, skills, timeline and budget.
2. **Profiles:** **[2–3]** pre-vetted candidates within **[5]** business days.
3. **Interview:** you interview and choose – technical assessments available.
4. **Onboarding:** expert starts; ChauTech handles contracts, equipment and compliance.
5. **Ongoing:** regular check-ins, performance reviews and free replacement if needed.

SECTION 6 – PROOF & COMPLIANCE

STATS	**[Number]** experts placed · average time-to-start **[X]** days · **[X]**% extension rate
TESTIMONIAL	"**[Verified quote]**" – **[Name]**, **[Head of Engineering / HR Director]**, **[Company]**
COMPLIANCE	GDPR-compliant candidate handling · Legally compliant contracts under German law · **[AÜG licence for Arbeitnehmerüberlassung – confirm before publishing]**

SECTION 7 – FAQ

Q What is the difference between staff augmentation and outsourcing?
With staff augmentation, experts join your team and work under your direction. With outsourcing or project delivery, ChauTech takes responsibility for the complete outcome.

Q How fast can a developer start?
Typically within **[2–4]** weeks. Candidate profiles are usually shared within **[5]** business days of the briefing.

Q What happens if an expert is not the right fit?
We replace them quickly and at no extra cost, so your project keeps moving.

Q Can external developers work on-site in Germany?
Yes – on-site, hybrid or fully remote, depending on your needs and the role.

Q How are costs calculated?
Staff augmentation and dedicated teams are billed monthly or by hours worked, based on role and seniority. You receive a transparent rate card after the briefing.

Implement as FAQPage schema (JSON-LD). Keep answers identical on page and in markup.

SECTION 8 – FINAL CTA	
HEADLINE	Tell us who you need – we'll show you profiles this week.
PRIMARY CTA	Request candidate profiles
REASSURANCE	No cost until an expert starts · Flexible contracts

SEO & AEO INTELLIGENCE	
H1 RECOMMENDATION	Software Development & AI Solutions for the Automotive Industry
META TITLE (EN)	Automotive Software Development & AI | ChauTech
META DESCRIPTION (EN)	Engineering capacity, cloud platforms and AI for OEMs, suppliers and mobility providers. Experts who know automotive processes. Talk to us.
META TITLE (DE)	Softwareentwicklung & KI für Automotive | ChauTech
META DESCRIPTION (DE)	Engineering-Kapazität, Cloud-Plattformen und KI für OEMs, Zulieferer und Mobilitätsanbieter. Experten mit Automotive-Prozesswissen.
TARGET REGION	DACH (automotive hubs) + Worldwide
PRIMARY KEYWORD	automotive software development · DE: Softwareentwicklung Automotive
SECONDARY KEYWORDS	automotive IT consulting, connected car platform, supplier digitalization · DE: Automotive IT-Dienstleister, Zulieferer Digitalisierung
LSI / SEMANTIC	software-defined vehicle, OEM, tier-1 supplier, TISAX, ASPICE, logistics, manufacturing IT, aftersales
INTENT & PERSONA	Commercial · IT/engineering leaders at OEMs, suppliers and mobility companies
AEO DIRECT ANSWER (40 WORDS)	*ChauTech supports automotive OEMs, suppliers and mobility companies with software engineering, cloud platforms, data and AI solutions and experienced IT specialists. Typical projects include connected-vehicle backends, supplier and logistics digitalization, aftersales platforms and AI automation in operations and quality processes.*

SECTION 1 – HERO

DISPLAY HEADLINE	Engineering capacity for the software-defined automotive era.
SUB-HEADLINE	From connected services to supplier processes – we deliver the software and AI talent your roadmap needs.
PRIMARY CTA	Discuss your automotive project

SECTION 2 – INDUSTRY CHALLENGES → CHAUTECH SOLUTIONS

Challenge	Our solution
Shortage of software engineers during the SDV transition	Experienced engineers and dedicated teams in **[2–4]** weeks
Complex supplier and logistics processes	Integration platforms and n8n/AI automation across ERP and portals
Legacy IT in plants and aftersales	Step-by-step modernization and cloud migration
Strict information-security requirements	Security-aware delivery aligned with customer requirements (e.g. TISAX context)

SECTION 3 – SERVICES FOR THIS INDUSTRY

Connected & Cloud Platforms
Vehicle data backends, APIs, dealer and customer portals

Manufacturing & Logistics IT
MES/ERP integration, tracking, dashboards

AI in Operations
Quality inspection data, document automation, predictive insights

Team Extension
Backend, cloud, data and test engineers for OEM and supplier projects

SECTION 4 – COMPLIANCE & TRUST

- Security-aware engineering practices and NDA-first collaboration
- **[TISAX assessment – only if held; otherwise omit]**
- GDPR-compliant handling of vehicle and customer data

SECTION 5 – PROOF

CASE TEASER	**[Client in this industry]: [Measurable result]** → Read case

SECONDARY KEYWORDS	banking IT consulting, insurance software, payment platform development · DE: IT-Beratung Banken, Bankprozesse Beratung, FinTech Entwicklung
LSI / SEMANTIC	DORA, BaFin, core banking, digital onboarding, KYC, credit processes, OSPlus, regulatory reporting, payments
INTENT & PERSONA	Commercial · CIOs, Heads of IT, project leads in banks, insurers and fintechs
AEO DIRECT ANSWER (41 WORDS)	*ChauTech helps banks, insurers and fintech companies modernize processes and build secure digital products. Services include banking-process analysis, software and cloud development, AI-based document and credit-process automation, and experienced specialists, delivered with attention to regulatory requirements such as DORA and GDPR.*

SECTION 1 – HERO

DISPLAY HEADLINE	Secure financial technology – built for regulation and speed.
SUB-HEADLINE	Business analysts, engineers and AI experts who understand banking processes and regulatory expectations.
PRIMARY CTA	Discuss your financial-services project

SECTION 2 – INDUSTRY CHALLENGES → CHAUTECH SOLUTIONS

Challenge	Our solution
Manual, paper-heavy credit and onboarding processes	Process analysis and AI document automation
Regulatory pressure (DORA, BaFin expectations)	Resilient architecture, documentation and ICT risk-aware delivery
Shortage of banking-process specialists	Business analysts and domain experts on demand **[confirm]**
Legacy core systems	API layers and gradual modernization

SECTION 3 – SERVICES FOR THIS INDUSTRY

Banking Process Consulting
Credit, onboarding and back-office process analysis

Digital Products
Customer portals, onboarding apps, payment integrations

AI & Automation
Document extraction, KYC support, internal knowledge assistants

Specialists
Business analysts, core-banking and test experts

SECTION 4 – COMPLIANCE & TRUST

- DORA-aware delivery: documentation, testing and resilience
- GDPR-compliant data handling; EU hosting options
- Confidentiality and NDA-first collaboration

SECTION 5 – PROOF

CASE TEASER	**[Client in this industry]: [Measurable result]** → Read case
TESTIMONIAL	"**[Verified quote]**" – **[Name]**, **[Role]**, **[Company]**

SECTION 6 – FAQ

Q **Does ChauTech work with regulated banks?**
[Describe verified experience.] Our specialists support banking projects such as credit-process analysis and software implementation.

Q **How do you handle DORA requirements?**
We design and document solutions with ICT risk, resilience testing and third-party requirements in mind, and align with your compliance team.

Q **Can AI be used in credit processes?**
Yes, for supporting tasks such as document extraction and data preparation, with human decisions and clear documentation.

Implement as FAQPage schema (JSON-LD). Keep answers identical on page and in markup.

SECTION 7 – FINAL CTA

HEADLINE	Modernize financial processes safely.
PRIMARY CTA	Talk to a financial-services expert

3.12 Case Studies / Impact Stories – Template

URL: /en/case-studies/**[slug]**/ · /de/referenzen/**[slug]**/

SEO & AEO INTELLIGENCE	
H1 RECOMMENDATION	**[Result-led headline, e.g. 'How [Client]** Cut Order Processing Time by 60% with AI Automation']
META TITLE (EN)	**[Client/Industry]**: **[Main Result]** | ChauTech Case Study
META DESCRIPTION (EN)	How ChauTech helped **[client type]** achieve **[result]** with **[solution]** in **[timeframe]**. Challenge, approach, technology and measurable impact.
META TITLE (DE)	**[Kunde/Branche]**: **[Ergebnis]** | ChauTech Referenz
META DESCRIPTION (DE)	Wie ChauTech **[Kundentyp]** mit **[Lösung]** in **[Zeitraum]** zu **[Ergebnis]** verholfen hat. Ausgangslage, Vorgehen, Technologie und Ergebnis.
TARGET REGION	DACH + Worldwide
PRIMARY KEYWORD	**[service]** case study **[industry]** · DE: **[Leistung]** Referenz **[Branche]**
SECONDARY KEYWORDS	**[technology used]**, **[problem solved]**, **[industry]** digitalization
LSI / SEMANTIC	results, ROI, implementation, before and after, customer success
INTENT & PERSONA	Commercial investigation / proof · all decision makers, especially before a sales call
AEO DIRECT ANSWER (38 WORDS)	**[Client type]** *needed to* **[solve problem]**. *ChauTech* **[built/implemented solution]** *using* **[key technologies]** *within* **[timeframe]**. *The result was* **[primary metric, e.g. 60% faster processing]** *and* **[secondary metric]**, *achieved with* **[team size]** *and full GDPR compliance.* **[Keep to 40–50 words.]**

WIREFRAME – FIXED STRUCTURE FOR EVERY CASE STUDY

Block	Content	Rules
Hero	Result-led headline, client logo (approved), industry, service, duration	Lead with the number, not the technology
Key results bar	3 metrics: e.g. –60% processing time · 25 h/week saved · 8-week delivery	Only measured, client-approved figures
The challenge	Situation, pain, business impact of doing nothing (80–120 words)	Write from the client's perspective
The solution	Approach, phases, team, key decisions (120–180 words)	Explain why, not only what
Technology	Stack icons + one sentence per core technology	Supports long-tail SEO
The impact	Before/after table, business outcome, next steps	Add timeframe and baseline
Testimonial	Quote with name, role, company, photo	Written approval required
Related	2 related services + 1 related case	Internal links
CTA	'Facing a similar challenge? Book a free consultation.'	One CTA only

ANONYMOUS VERSION (IF CLIENT NAME CANNOT BE PUBLISHED)

Use a descriptive client label, for example: 'A mid-sized logistics company in northern Germany (400 employees)'. Anonymous cases still work for SEO and AEO when they contain specific, measurable results.

CASE-STUDY DATA COLLECTION FORM (FOR THE DELIVERY TEAM)

- Client name, industry, size, country – and publishing permission (named / anonymous).
- Problem in the client's words; baseline metrics before the project.
- Scope, timeline, team size, technologies.
- Results after **[3–6]** months with source of each number.
- Approved quote and contact person for references.

FAQ BLOCK PER CASE STUDY (SCHEMA-READY)

Q **How long did the project take?**
[Timeframe from kick-off to go-live.]

Q **Which technologies were used?**
[Core stack in one sentence.]

Q **Can this solution work for other companies?**
[Yes/where it applies, with conditions.]

Implement as FAQPage schema (JSON-LD). Keep answers identical on page and in markup.

META DESCRIPTION (EN)	Work on software, cloud and AI projects for leading companies. Permanent and freelance roles in Hamburg and remote. See open positions.
META TITLE (DE)	IT-Jobs Hamburg & Remote | Karriere bei ChauTech
META DESCRIPTION (DE)	Arbeiten Sie an Software-, Cloud- und KI-Projekten für spannende Kunden. Feste und freiberufliche Stellen in Hamburg und remote.
TARGET REGION	DACH + Worldwide (remote)
PRIMARY KEYWORD	IT consultant jobs Hamburg · DE: IT-Consultant Jobs Hamburg
SECONDARY KEYWORDS	software developer jobs remote, AI engineer jobs Germany, IT freelance projects · DE: Softwareentwickler Jobs Hamburg, IT-Freelancer Projekte
LSI / SEMANTIC	career, open positions, freelance, remote work, benefits, (m/w/d), application process
INTENT & PERSONA	Navigational / job search · developers, consultants, freelancers, AI engineers
AEO DIRECT ANSWER (47 WORDS)	*ChauTech Consulting hires IT consultants, software developers, cloud and AI engineers and business analysts for permanent and freelance roles. Positions are based in Hamburg or remote, with projects for clients in Germany and internationally. Applications are submitted online, and candidates typically receive feedback within* **[5]** *business days.*

SECTION 1 – HERO

DISPLAY HEADLINE	Build what's next – with a team that values your expertise.
SUB-HEADLINE	Work on software, cloud and AI projects for companies across Europe and beyond – permanent or freelance, in Hamburg or remote.
PRIMARY CTA	See open positions
SECONDARY CTA	Send an open application

SECTION 2 – WHY CHAUTECH

Meaningful projects
Real products and AI solutions used by real businesses every day.

Flexibility
Remote, hybrid or on-site; permanent or freelance – **[confirm options]**.

Growth
Learning budget, certifications and mentoring by senior experts **[confirm]**.

Fair and transparent
Clear processes, honest feedback and fast decisions.

SECTION 3 – OPEN POSITIONS (DYNAMIC LIST)

Job cards: title (m/w/d), location/remote %, type (permanent/freelance), duration, key skills, 'Apply' button. Each job page uses **JobPosting** schema so roles appear in Google for Jobs.

SECTION 4 – HIRING PROCESS

1. Online application (CV only – no cover letter required).
2. Intro call (30 min) within **[5]** business days.
3. Technical or case interview with a senior expert.
4. Offer and onboarding.

SECTION 5 – PROOF

EMPLOYEE QUOTE	"**[Verified quote from team member]**" – **[Name]**, **[Role]**
EMPLOYER FACTS	**[Team size]** · **[Nationalities]** · **[Remote share]**

SECTION 6 – FAQ

Q **Can I work remotely for ChauTech?**
Many roles are remote or hybrid; each job ad states the location and remote share.

Q **Does ChauTech hire freelancers?**
Yes. We regularly offer freelance project roles in software, cloud, AI and business analysis.

Q **Do I need to speak German?**
It depends on the role and client. Many projects require German; international projects are in English. Each job ad states the language requirements.

Q **How long does the application process take?**
Usually **[2–3]** weeks from application to offer.

Implement as FAQPage schema (JSON-LD). Keep answers identical on page and in markup.

SECTION 7 – FINAL CTA

HEADLINE	Didn't find the right role?
PRIMARY CTA	Send an open application

SEO & AEO INTELLIGENCE	
H1 RECOMMENDATION	Contact ChauTech Consulting – Book Your Free 30-Minute Consultation
META TITLE (EN)	Contact & Free Consultation | ChauTech Consulting Hamburg
META DESCRIPTION (EN)	Book a free 30-minute call with an IT, software or AI expert. Answer within 1 business day. ChauTech Consulting GmbH, Hamburg, Germany.
META TITLE (DE)	Kontakt & kostenloses Erstgespräch | ChauTech Hamburg
META DESCRIPTION (DE)	Buchen Sie ein kostenloses 30-minütiges Gespräch mit einem IT-, Software- oder KI-Experten. Antwort innerhalb eines Werktags.
TARGET REGION	DACH + Worldwide
PRIMARY KEYWORD	book IT consultation · DE: IT-Beratung Termin vereinbaren
SECONDARY KEYWORDS	contact IT consultancy Hamburg, free AI consultation, software project inquiry · DE: Kontakt IT-Dienstleister Hamburg, kostenlose KI-Beratung
LSI / SEMANTIC	discovery call, appointment, address, phone, email, response time
INTENT & PERSONA	Transactional · all decision makers ready to talk
AEO DIRECT ANSWER (46 WORDS)	*To contact ChauTech Consulting, book a free 30-minute discovery call online, send the contact form, or email* **[email address]**. *The company is based in Hamburg, Germany, responds within one business day and holds consultations in German or English for clients in the DACH region and worldwide.*

SECTION 1 – HERO

DISPLAY HEADLINE	Let's talk about your project.
SUB-HEADLINE	Book a free 30-minute call with an expert – no sales pitch, just a clear next step.
PRIMARY CTA	Pick a time (embedded booking calendar)
SECONDARY CTA	Or send us a message

SECTION 2 – BOOKING CALENDAR + SHORT FORM (SIDE BY SIDE)

Field	Type	Required
Name	Text	Yes
Business email	Email	Yes
Company	Text	Yes
Topic	Dropdown: IT Consulting · Software & Cloud · AI & Automation · IT Teams · Other	Yes
Message	Text area (optional)	No
Privacy consent	Checkbox with link to privacy policy	Yes

Keep the form to four required fields plus consent. Every extra field reduces completion rates.

SECTION 3 – WHAT HAPPENS NEXT

1. You book a time or send a message.
2. We confirm within 1 business day and send a short agenda.
3. 30-minute call: goals, challenges, options.
4. You receive a written summary and recommended next step – free of charge.

SECTION 4 – CONTACT DETAILS & TRUST

COMPANY	ChauTech Consulting GmbH
ADDRESS	**[Street, postcode]** Hamburg, Germany
PHONE / EMAIL	**[Phone]** · **[Email]**
HOURS	Monday–Friday, **[09:00–18:00]** CET
MAP	Embedded map (consent-based loading) + Google Business Profile link
TRUST	GDPR-compliant · Your data is never shared · Answer within 1 business day

SECTION 5 – FAQ

Q **Is the first consultation really free?**
Yes. The 30-minute discovery call is free and without obligation.

Q **Who will I speak with?**
A senior consultant or engineer with experience in your topic – not a call center.

Q **Can we sign an NDA before sharing details?**
Yes. We are happy to sign an NDA before the first detailed conversation.

Q **Do you offer consultations in English?**
Yes, in German and English.

Implement as FAQPage schema (JSON-LD). Keep answers identical on page and in markup.

SECTION 6 – FINAL CTA

HEADLINE	Your next step takes 30 minutes.
PRIMARY CTA	Book your free consultation

APPENDIX

A Appendix – Structured Data & llms.txt Starters

A.1 Organization schema (JSON-LD, home page)

```
{
 "@context": "https://schema.org",
 "@type": "Organization",
 "name": "ChauTech Consulting GmbH",
 "url": "https://chautech.de",
 "logo": "https://chautech.de/[logo-file].png",
 "description": "IT consultancy in Hamburg for IT consulting, software development, cloud, AI
automation and dedicated IT teams.",
 "address": {"@type": "PostalAddress", "streetAddress": "[Street]", "postalCode": "[Postcode]",
"addressLocality": "Hamburg", "addressCountry": "DE"},
 "areaServed": ["DE", "AT", "CH", "Worldwide"],
 "sameAs": ["https://www.linkedin.com/company/chautech-consulting-gmbh", "[Facebook URL]"]
}
```

A.2 FAQPage schema pattern

```
{
 "@context": "https://schema.org",
 "@type": "FAQPage",
 "mainEntity": [{
  "@type": "Question",
  "name": "What does ChauTech Consulting do?",
  "acceptedAnswer": {"@type": "Answer", "text": "[Exact answer text from the page]"}
 }]
}
```

A.3 /llms.txt (plain-text summary for AI crawlers)

```
# ChauTech Consulting GmbH
> Hamburg-based IT consultancy: IT consulting, custom software & cloud, AI & n8n automation, staff
augmentation and dedicated IT teams for DACH and worldwide.

## Services
- [IT Consulting](https://chautech.de/en/services/it-consulting/)
- [Software & Cloud](https://chautech.de/en/services/software-development-cloud/)
- [AI & Automation](https://chautech.de/en/services/ai-automation/)
- [Dedicated Teams](https://chautech.de/en/services/dedicated-teams/)

## Contact
- [Book a consultation](https://chautech.de/en/contact/)
```

llms.txt is an emerging convention, not an official standard; it is cheap to add and helps AI tools summarize the site accurately.
